## Experience

---

**California State University – Long Beach**  
**Tutor – Computer Engineering and Science Department**

**September 2014 – Present**  
**Long Beach, CA**

- Assist students in their Computer Science and Engineering courses.
- Articulate problem and solutions to enhance comprehension on the subject.

**Competitor of the Southern Regional ACM competition**      **Fall 2014**

- Worked in a team of three to solve problems by cooperation and teamwork.
- Ranked top 50 out of a total of 86 teams.

**Boys and Girls Club of San Dieguito**  
**Assistant Wrestling Coach**

**December 2011 – February 2013**  
**San Diego, CA**

- Aided the head wrestling coach to demonstrate the art and technique of grappling and throwing.
- Successfully assisted in leading twenty-five middle school students

## Projects

---

**Othello and TicTacToe – C++ for Java Programmers**      **Fall 2014**

- Using the Model-View-Controller software design pattern, standard libraries, object oriented design, and inheritance created a two player board game where the user can either choose to play Othello or TicTacToe.
- Used dynamic memory allocation thus having to manage the allocated memory manually.
